HISTORICAL SKETCH

The need for an associational high school had long been recognized and agitated by leading members in both the Sandy Run and Kings Mountain associations. The former was the first to take active steps looking to such a school, but found it difficult to decide on a suitable location.

In the year 1904, when the association convened at Zoar Church, the Kings Mountain Association resolved to build a school, and took active steps looking to that end. In 1905 Boiling Springs, on the border-line of the two associations, was selected as the site and a happy arrangement made by which the two associations united in building and operating the school. The two bodies have worked together in perfect harmony at all times. The school was chartered on December 2, 1905, by the State under the name of "Boiling Springs High School, Incorporated."

After the State Department of Education provided rural high schools for all pupils, a campaign was put on to raise funds to convert the associational high school into a standard junior college. Through the efforts of the Baptist State Convention and the loyal friends of the school in the two associations, this campaign came to a successful close on April 30, 1928. Thus the College owes its existence to the two associations, and it is to their loyal support that it must continue to look for its further progress.

PRESIDENTS OF BOILING SPRINGS COLLEGE

The College opened its first session on September 3, 1928, with J. B. Davis, M. A. and Th. M., as president and J. D. Huggins, A. B., who had been connected with the high school since its beginning, as its first dean. Succeeding President Davis were the following:

Zeno Wall, D. D.	1930-1932
J. L. Jenkins, A. B.	1932-1935
A. C. Lovelace, A. B., M. Ed.	1935-1936
George J. Burnett, A. B., M. A.	1936-

ACADEMIC STANDING

During the years since the school became a junior college its work has been recognized both by the senior colleges of this and neighboring states and by the State Department of Education. The work is of standard quality, and thorough scholarship is emphasized in the selection of faculty, organization of courses, and requirements for graduation.

Not only have its graduates had no difficulty in entering higher institutions of learning but many of them have made brilliant records at both denominational and state colleges in this and other states Its students have also won high honors in intercollegiate activities, including the 1937 junior college championship in debating and other forensic honors in tournaments with senior colleges. Then again 1938 championship in debating was won by Boiling Spirngs College, both the boys' and girls' teams winning.

ENDOWMENT

No educational institution can exist solely on the fees paid by students, and a permament endowment is an absolute essential for the continuance and progress of any college. An endowment fund for Boiling Spings High School was started in 1919 by a gift of $1000 from Mr. J. L. Putnam of Zoar Church, one of the most loyal and faithful friends of the school. Later gifts of $100 each were made by eight graduating classes to be applied toward the endowment of a chair of Bible. In 1923 the Gaston County Association made a gift of a little over $1100 and the late W. Harrison Eskridge of Shelby bequeathed to the school 3-8 of 10 per cent of his estate, this percent amounting to about $1,300. To date the total amount of gifts for endowment is a little less than $7000, and a large increase in this fund is one of the greatest needs of the college.

SCHOLARSHIPS AND LOAN FUNDS

Another very urgent need is a revolving loan fund, to be used by worthy students without interest during their college course, and to be paid back with interest several years after graduation. Efforts are being made to raise such a fund through the Alumni Association and interested friends.

The college offers to the Freshman making the highest average a $50 scholarship for the senior year

Mr. L. R. Harrill, State director of Four-H Clubs, offers a citizenship medal to the senior boy making the best record in scholarship, athletics, and general interest in college activities.

Mr. John W. Suttle, moderator of the Kings Mountain Association, offers a medal to the student making the best record in Bible courses and having the best grasp of Bible teachings.

Mr. Bynum Weathers offers the Lucille Greene Memorial Medal to the best woman debater in the Athenian-Rhamsaeur Literary Society.

The M. G. Martin Memorial Scholarship is given to students of Orthodox faith who are preparing for the Baptist ministry, preference being given to relatives of the Martin family. Value $100.

LOCATION AND BUILDINGS

Boiling Springs College is located in Cleveland County near the foothills of the Blue Ridge mountains, in the western Piedmont section of the state, which is one of the most healthful sections in the South. It is nine miles west of Shelby and three miles off No. 20 highway. The incorporated village of Boiling Springs has a high reputation for its beauty, thrift and hospitality, and for the high moral and religious ideals of its citizens.

The school plant consists of four large buildings.

THE MEMORIAL BUILDING, a large brick building erected in honor of those who served in the late war, was burned on November 12, 1937.

THE WOMEN'S BUILDING is also of brick. In the basement are a large and well-equipped kitchen and a dining room capable of seating comfortably 250 people. On the first floor are offices, class rooms, library, parlors, society halls, and a large social room adapted to both formal receptions and informal recreation; on the second and third floors are bedrooms, each containing two closets and two or more windows; an infirmary, a pressing room, lavatories, and showers.

THE MEN'S DORMITORY is also a three-story brick building. All of these are furnished with steam heat, waterworks, and electric lights. Water is supplied from a deep well on the school grounds.

THE GYMNASIUM, the newest building on the campus, is a large frame structure containing dressing-rooms, showers, and a hardwood floor of standard dimensions, with approved lighting facilities. This is the best gymnasium in Cleveland County for a well-rounded program of games and physical education.

THE LIBRARY

THE LIBRARY is a large, commodious room equipped with tables and chairs for reading and study. The books are classified according to the Dewey decimal system of classification with a card catalogue, and students are encouraged to help themselves. The library has received many gifts which are thoroughly appreciated, and especial mention should be made of the large number of books which have come to the library from the late Mr. Carme Elam. A trained librarian has full charge and, with the assistance of several students, keeps the library open from eight o'clock in the morning until nine o'clock at night except during meal hours.

STUDENT LIFE

HEALTH

All applicants for admission should be in good health at the time of entering. A sound body is such a valuable asset and so requisite to effective study that the college does everything in its power to insure the best possible physical development of each student and to maintain his general health. The college is noted for its dining room, which furnishes abundant meals with varied and well balanced menus. An infirmary is maintained in the women's building and simple remedies are administered when necessary, but local phsicyians are available for any serious cases.

SPORTS AND ATHLETICS

The school employs competent coaches for both men's and women's sports. Both intercollegiate and intramural programs are provided. Due to the interest in athletics of the entire student body, the college teams have won a fine reputation. The men's football, basketball, and baseball teams belong to the North Carolina Junior College Conference and engage in intercollegiate contests. The women's basketball team has won the state junior college championship for the past two years.

Any student who is not passing the required number of hours is removed from the team until his work is reported satisfactory by the classroom teacher.

LITERARY SOCIETIES

Until 1933 there were four literary societies, two for girls and two for boys. These are now merged into two—the Kalagathian-Kalliergeonian, and the Athenian-Rhamsaeur—both of which contain both men and women. Membership in these societies is optional but strongly recommended. Each society carries on a varied program, with special emphasis on forensics, and the president of the college has offered a prize to the society which does the best work during the year in serious debating.

SOCIAL ACTIVITIES

The college provides a rich and varied program of social and extra-curricular activties, which are as carefully planned as are

the courses of instruction. Receptions, parties, and socials, formal and informal, are included in the college calendar under control of a faculty committee, and trips to places of historic or scenic interest are planned from time to time. In all of these the aim is to furnish opportunity for the student to participate in a wide range of activities and to cultivate discrimination in the choice of pleasures.

RELIGIOUS LIFE

The ultimate aim of the college, as a Christian institution, is to develop the spiritual life of the individual student and to create an atmosphere conducive to right conduct and growth in Christian character.

The Baptist Student Union works with the faculty in seeking to accomplish these ends and its council is the connecting link between the college and the local church. All students are urged to put their membership in the Boiling Springs church and to attend its Sunday School and Baptist Training Union.

In addition to co-operating with the church, the Baptist Student Union conducts weekly religious programs in the college, sponsors study courses in Bible and methods of Christian work, sponsors daily morning devotionals and evening prayer meetings in the dormitories, and seeks to exercise a wholesome influence over all social contracts between students.

All of these activities are in addition to the Bible courses and chapel programs which are required as a regular part of the college schedule.

The ministerial students of the college have their own organization which meets weekly. These students not only take an active part in the religious life of the college, but they frequently supply the pulpit of the local church and neighboring churches. Four of these held pastorates in connection with their school work, three full time, the fourth student, half time.

POINT SYSTEM

In order to protect students from too heavy a load and to afford more individuals an opportunity for experience and leadership in organized groups, a point system has been inaugurated to cover all the extra-curricular activities, including membership and office holding in athletic, literary, and religious organizations.

REGULATIONS AND GENERAL INFORMATION

DISCIPLINE

The ideal of college life is that of a well-ordered Christian home, where each individual may have as much freedom as is consistent with the well-being of the group, and students are granted many privileges here which could not be allowed in a larger school. Since the growth in character comes only through the development of self-direction and self-control, rules and regulations are reduced to a minimum and are made or amended as may seem necessary for the good of the individual and the group. The responsibility for making and enforcing these rules and regulations rests jointly on faculty and students. For several years the college has had a system of partial student government, and separate councils of men and women handle minor problems of conduct.

It is assumed that students are ladies and gentlemen and that they will conduct themselves accordingly. Certain qualities are expected of each one, including:

FAITHFULNESS AND PROMPTNESS in the performance of all duties, both in academic work and in any work which the student may do to help pay his expenses.

RESPONSIBILITY AND CARE in the use of college property, and reparation for all damage done to rooms, furniture, equipment, library books, etc.

ORDERLY CONDUCT in dormitories, halls, and dining room at all times, with quiet during study hours and after the signal for lights out at night.

COURTESY AND CONSIDERATION in all relations with students and teachers, especially between young men and young women. A large degree of freedom is granted in social relations, but with the understanding that this may be revoked if abused.

CHURCH ATTENDANCE and participtation in the life of the local church.

STRICT OBSERVANCE OF STUDY HOURS on week nights

and on Saturday mornings. Those who prove unable to do their work successfuly in the library or in their own rooms may be required to spend some time in a study hall under faculty supervision.

The list of things positively forbidden is short but definite. It includes:

Any gross immoral conduct
Cheating or dishonesty of any sort
The use of alcoholic drinks
The keeping of firearms while connected with the school
Card playing or gambling in any form
Smoking by women at any time
Smoking by men in or near the women's building.
Mixed dancing
The use of profanity or other unbecoming language.

FURTHER REGULATIONS

No secret societies are allowed among the students, and no organizations permitted unless approved by the faculty. Hazing is not permitted, and all society initiations must have the approval of and be conducted under the direction of a faculty sponsor.

No student will be allowed to represent the college in any contest unless he is a bona fide student—i. e., unless he is meeting classes at least twelve hours a week and passing at least nine hours of work.

No boarding student will be allowed to keep an automobile on the campus without the approval of the faculty.

ADVICE TO PARENTS

The co-operation of parents is earnestly requested in regard to all the regulations of the school, especially in regard to week-end trips home or other absences from the campus. The school year has been arranged with a view to the convenience of its agricultural patrons, and in order to accomplish the required amount of work within the given time it is necessary that students devote their whole time to it. Although classes are not regularly scheduled on Saturdays this year, the Saturday mornings are very necessary for study and for the work which students do about the school; and most of the athletic games, trips and social events are planned for Friday and Saturday afternoons and evenings. It is also desired that the college students take an active part in the morning and evening services of the local church, and that Sunday afternoons be observed as a time of rest. For all of these reasons parents are

urged not to request that their children be excused for frequent week-ends, and not to plan for their children to work off the campus.

Parents are invited to visit the college and to talk or write freely about their children. The college officials are always glad to know the parents' point of view and to do anything in their power to correct any wrong, real or imaginary.

HOW TO GET HERE

Boiling Springs College is in Cleveland County, North Carolina, three miles off U. S. highway No. 74, (N. C. No. 20). There are excellent hard-surfaced roads both to the highway and direct to Shelby. Lattimore is the nearest railroad station. Express and telegrams may be sent either through Shelby or through Lattimore. The college is on the new highway, N. C. No. 184, nine miles from Shelby.

WHAT TO BRING

Each dormitory room contains bed, springs, mattress, dresser, washstand, table and two chairs. Students furnish their own pillows, bedding, linen, curtains, etc. Each student should bring a glass and spoon for use in the room so as to avoid carrying dishes or silver from the dining room.

Each student must have gymnasium suit and shoes.

REQUIREMENTS FOR ADMISSION

Students are admitted:

1. By certificate. Graduates of high schools affiliated with the Southern Association of Colleges and Secondary Schools or other recognized accrediting agencies are admitted by diploma or certificate.

2. By special permission. Students above twenty years of age, and of high purpose. upon approval of the dean are allowed to take college work, and will be classed as "specials."

Fifteen units of entrance credits are required for admission to candidacy for the title of Associate in Arts. The minimum prescribed requirements for admission to this title are as follows:

Note: A unit is the credit allowed for satisfactory work in a given subject for five periods a week of not less than forty minutes each throughout an academic year of thirty-six weeks, or its equivalent. It is approximately one-fourth of a year's work in high school.

HIGH SCHOOL

The Boiling Springs public high school is located so near to the college that it is easily possible for any student whose preparation is deficient to combine high school and college work. Such

students who live at a distance may secure room and board in the college if desired.

MATRICULATION

Before a student is counted as enrolled in any class he must have completed the following steps:

1. Secure a matriculation card from the Registrar and fill in the general information called for.

2. Confer with an adviser for assistance in regard to the courses and schedule.

3. Present the card to the Dean for final approval of courses of study.

4. Pay or arrange for the required fees at the college office.

5. Present the card to each teacher at the first session of the class.

6. Return the card to the Dean as soon as it is signed by each teacher concerned.

A registration day is set aside at the beginning of each quarter, viz: September 13, December 5 and March 6

REQUIREMENTS FOR DIPLOMA WITH TITLE OF ASSOCIATE IN ARTS

Bible	3	6	9
Science	4	8	12
Health Education	1	2	3
Electives	7	14	21
Physical Education	2	4	6
	32	64	96

* The requirement in Mathematics applies especially to those who wish to offer this subject for senior college credit. Others may substitute electives.

A year hour represents a recitation period of at least fifty minutes each week for a minimum of thirty-four weeks.

A semester hour represents a recitation period of at least fifty minutes each week for half a college year.

A quarter hour represents a recitation period of at least fifty minutes each week for one third of a college year.

Boiling Springs College will use as its unit of measure the **quarter-hour**, ninety-six of which are required for graduation.

Every student is expected to register for at least twelve hours each quarter in addition to Physical Education.

No freshman may take more than seventeen quarter hours during his first quarter, and no student may take more than seventeen hours at any time unless he has passed fifteen hours with a grade of at least 80 the preceding quarter and has permission from the faculty.

The maximum number of hours allowed during any quarter will be determined by the quality hours made by the student.

QUALITY REQUIREMENTS

In order to be graduated a student must have met the requirements as outlined in the course of study which entitles him to the diploma with the title of Associate in Arts. In addition to the ninety-six quarter hours, a student must earn ninety-six quality hours based on the grades made on his course as scheduled below:

Grade	
A, 93-100	3 quality hours for each hour of credit
B, 87- 92	2 quality hours for each hour of credit
C, 80- 86	1 quality hour for each hour of credit
D, 70- 79	0 quality hours for each hour of credit
E, Below 70 (Failure)	1 quality hour for each hour of credit to be subtracted from the student's record.

Grades from 70-79 inclusive constitute a conditional pass, which may be raised and quality hours earned by doing the work assigned by the teacher of that course before the end of the following quarter.

At the end of each quarter a check shall be made and all those students not making a single quality hour shall be called before the dean for consultation.

ABSENCES

Regular attendance at classes is expected and students who willfully absent themselves are subject to penalty.

Absences incurred in order to represent the college, as members of athletic teams or other recognized organizations, will be excused provided they are arranged for in advance by the person in charge and provided that the work is made up to the satisfaction of the department concerned.

Application for excused absences due to illness must be made to the Director of Physical Education. Applications for excused absences due to reasons other than those mentioned above must be made to the dean.

An excused absence is one that is granted by the teacher in charge after receiving a request from any of the above-mentioned officials, and after the work is satisfactorily made up. The work must be made up before the end of the week following the occurrence of the absence; otherwise it will be counted as unexcused.

Three unexcused tardy marks constitute one absence.

Absences from a class immediately preceding or following a holiday are counted double. For every two unexcused absences one quality hour will be subtracted from the student's record. After the absences amount to twenty-five per cent of the total class periods in any course the above regulations cease to apply and no credit for the course will be given.

Chapel attendance is compulsory. If in any quarter the student absents himself from chapel more than eight times without permits which excuse him from college duties generally, he will not be permitted to register in any subsequent quarter unless the faculty deems it wise to set aside the penalty.

COURSES OF INSTRUCTION

DEPARTMENT OF BIBLE

MR. JENKINS

As a Christian institution Boiling Springs College was founded on the Bible, and the chief aim of the college is the development of Christian character. Therefore the study of the Bible claims major attention.

BIBLE 1-2. This is a general survey of the entire Bible. The first half covers the history of the Old Testament period, including the prophetical writings and some of the poetical books. The Bible itself is the principal text. Parallel readings and term papers are required.

The New Testament portion starts with a study of the life and times of Christ and continues with the early development and spread of Christianity as recorded in Acts and the Epistles. The entire New Testament is read, and parallel readings are required, including a Harmony of the Gospels, a life of Christ, and a life of Paul.

Credit nine quarter hours.

BIBLE 3-4. This course is of interest especially to ministerial students and Christian workers. An intensive study is made of several of the Epistles and other portions of the Scriptures, from the standpoint of their homiletical value, and practice is given in sermon building.

Credit nine quarter hours.

DEPARTMENT OF ENGLISH

MISS BOSTICK MISS CRISP MR. WASHBURN

ENGLISH A. B. C.—Review Classes

Standard placement tests in English grammar, spelling, and usage will be given at the beginning of the year. All those whose test records show that they are deficient in these respects, and all who fail in English 1 or 2, will be required to take review work in these fundamentals until they can qualify on a standardized test.

Two hours each quarter. No credit.

ENGLISH 1-2. READING AND WRITING

The Freshman course in English has the following aims:

1. To give practical aid to the student's grasp of his other college subjects by frequent exercises in note-taking, outlining, summarizing, precise writing, use of library tools, etc.

2. To correct errors in speech, grammar, and punctuation by drill and self-correction.

3. To widen vocabulary by the study of deriviations, synonyms, etc.

4. To give practice in self-expression, both oral and written, and in the logical organization of material into correct sentences, paragraphs and themes, culminating in a more extended term paper.

5. To encourage reading for enjoyment through the study of selected types of literature.

Required of all Freshmen. Credit nine quarter hours.

ENGLISH 3-4. ENGLISH LITERATURE

A survey course in the history and development of English literature, with especial attention to Chaucer, the Elizabethan era, and the Romantic poets. The course will be conducted by lectures, readings, individual conferences, and written reports, culminating in a more extended term paper.

Required of all Seniors. Credit nine quarter hours.

ENGLISH 5. AMERICAN LITERATURE

A study of American literature as an expression of American ideals and social and intellectual conditions. The leading poets, novelists, humorists, and short-story writers will be studied.

Elective. Credit five quarter hours.

ENGLISH 6. VICTORIAN POETS

A brief survey of minor poets of the Victorian period, with intensive study of Tennyson and Browning and especial attention to their religious philosophies.

Elective. Prerequisite: English 3-4. Credit five quarter hours.

ENGILSH 7. JOURNALISM

A practical elementary course which includes news gathering, news writing, feature articles, editorials, and headlines. Students will practice in write-ups of college affairs for the college publications and for the local newspapers. Visits to newspaper plants and addresses by representatives of newspaper staffs will be arranged from time to time.

Elective open to either Freshmen or Seniors. Credit one hour each quarter.

DEPARTMENT OF SPEECH

MRS. BURNETT

The ability to express one's self clearly and effectively is valuable in every calling. A well-trained voice and clear enunciation are equally desirable in ordinary conversation and in public speaking. The study of speech is helpful in attaining these ends and also in awakening a love and appreciation of good literature through interpreting it to others.

SPEECH CLASS

This class gives practice in reading aloud and reciting poetry and prose, with particular attention to posture, breath control, enuncitation and pronounciation, and the correction of manerisms. Its aim is to enable the student to read and interpret good literature in such a way as to increase his own enjoyment and to give pleasure to others.

Elective. One hour a week throughout the year. Credit three quarter hours.

ARGUMENTATION AND DEBATING

Special emphasis on the selection and arrangement of material, including brief making, logical forms, fallacies and refutations, in preparation for intercollegiate debates and tournaments.

Elective. One hour a week throughout the year. Credit three quarter hours.

DRAMATICS

Students in the speech department are organized as "The Romancers" to give dramatic presentations.

ORATORY

Special attention is given to speech-making in both prepared and extempore forms. Orations, after-dinner speeches and conversations are carefully supervised.

PARLIAMENTARY LAW

A course dealing with the conducting of public meetings, large or small. Topics include: presiding, making or amending motions, discussions, referring or tabling a measure, cloture rule, etc. Lectures and practice.

DEPARTMENT OF MATHEMATICS

MR. DIXON

The object of the course in mathematics is to enable the students to deduce their own rules and thus grasp the underlying principles of mathematics.

COURSE A. PLANE GEOMETRY

This course is offered for those students who enter college without having had it in high school. It may be taken in conjunction with courses 1 and 2. Five Days a week. Two Quarters.

No college credit

To take any of the following, the student must show that he has completed at least one year's work of elemenetary algebra and one year's work of higher algebra; and that he is familiar with the laws of exponents, radical expressions, quadratic equations, progressions, and the binomial theorem. He must also show that he has thoroughly mastered the five books of Plane Geometry.

COURSE 1. COLLEGE ALGEBRA

Rapid review of elementary algebra, paying special attention to exponents, radicals, and quadratics; then a thorough study of college algebra, including logarithms, variation, progressions, binomial theorem, theory of equations, and determinants.

Credit five quarter hours

COURSE 2. TRIGONOMETRY

A study of trigonometrical formulas and the use of logarithms, together with their practical application in the solution of right and oblique triangles. The last part of the course is devoted to analytic trigonometry, showing relations among formulas.

Credit four quarter hours

COURSE 3. ANALYTIC GEOMETRY

Systems of coordinates, loci, the line, circle, parabola, ellipse, hyperbola, transformation of co-ordinates, etc.

Prerequisite, Courses 1-2. Credit five quarter hours.

COURSE 4. CALCULUS

Introduction to differential and integral calculus.
Prerequisite, Courses 1, 2, 3. Credit five quarter hours

COURSE 5. SOLID GEOMETRY

Geometry of figures in space.
Elective. Credit three quarter hours.

DEPARTMENT OF NATURAL SCIENCE

MR. RICE

GENERAL BIOLOGY 1, 2, 3

The work of this course is the study in classroom and laboratory of the larger questions and fundamental principles of biology.

An introduction to the study of unicellular and multicellular plant and animal life, which includes morphology, physiology of systems and organs, metabolism, irritability, cells, cell differentiation, division of labor, forms of reproduction, heredity, and hereditary principles. Representative types of each phylum of both the plant and animal kingdoms are studied, and some dissections are made. Term paper, field trips, and laboratory work required. Lectures three hours and laboratory two hours a week throughout the year.

Credit twelve quarter hours

INORGANIC CHEMISTRY 1, 2, 3

The main object of this course is to teach the methods of scientific study and to prepare the way for the study of advanced chemistry, but the course is designed also to contribute to the intellectual and material progress of those students who do not desire to pursue the study further.

The fundamental principles of chemistry are studied and demonstrated in class and laboratory. The course covers the preparation, properties, and uses of the principal elements, metallic and non-metallic, and their compounds, with special emphasis on writing and balancing equations and on solving problems.

Three hours lecture and four hours laboratory work throughout the year. Credit will not be given for one or two terms alone.

Credit fifteen quarter hours.

DEPARTMENT OF SOCIAL SCIENCE

Practical experience will be given in work for the college library. Two hours a week throughout the year.

Senior Elective. Credit six quarter hours.

DEPARTMENT OF PHYSICAL AND HEALTH EDUCATION

MR. RICE MISS CRISP

The aims and objectives of the Department of Physical Education are: to enable students to keep themselves physically fit for the demands of college life; to encourage them to maintain good health during later years through their knowledge of personal physiology and hygiene; and to develop wholesome attitudes toward such recreational activities as may be carried over into later life.

It is the desire of the college that all students in the institution may have the benefit of outdoor sports, and of coaching in the major sports in which they find themselves especially interested. The major sports offered for men are football, basketball, and baseball. The varsity teams of these sports require special attention during their seasons. The college in its endeavor to encourage mass athletics proposes to organize also an Intramural Athletic Association.

COURSES FOR MEN

PHYSICAL EDUCATION 1-6

Unless excused by a physican, all students are required to take part in calisthenic exercises and games during both years, but those participating in intercollegiate sports are not required to meet the

class during the sport season.

Credit one hour each quarter.

REMEDIAL PHYSICAL EDUCATION 7, 8, 9

All who have been excused from the regular courses in physical education are required to take corrective exercises and recreational activities especially designed to meet individual needs.

Credit same as regular class

HEALTH EDUCATION 1, 2, 3.

An introductory course required of all Freshmen and of all Seniors who have not previously had a similar course. Lectures once a week. Fall quarter, anatomy and physiology; winter quarter, personal hygiene; spring quarter, foods and nutrition.

Credit three quarter hours.

COURSES FOR WOMEN

Wholesome athletics and sports for women are also encouraged. Athletics grow out of our physical education program and activity. Athletic teams here are not solely to win games but to create and develop a great interest in every student for clean sports, true sportsmanship, and fair and honest competition. The athletic policy of this college is to endeavor to encourage all students to take part in some sport or game that will keep them physically fit and mentally alert. Our motto is "A game for every girl, and a girl for every game."

Excellent opportunities are offered for a variety of recreations for those who do not wish to participate in the intercollegiate program. Intramural games of tennis, baseball, basketball, volley ball, speed ball, ping pong, and horseshoe are played during the year. The Women's Athletic Association gives credit points in the intramural program and each student who makes 1000 points wins a chenille "B" and is eligible for membership in the letter club.

PHYSICAL EDUCATION 1, 2, 3.

This is an introductory course in outdoor and indoor games, athletics, and sports. It includes the actual playing of games and personal participation in sports, organized games, and athletics. It also gives a broad foundation in the practice of gymnastics as a builder of the health and strength that girls need.

Required of all Freshman girls.

Credit three quarter hours.

PHYSICAL EDUCATION 4, 5, 6.

In addition to participation in athletics, each student is required to collect a list of games suitable for children of different school ages. This course also includes methods and technique of athletics. All senior girls are required to take two hours a week, unless physically unfit.

Credit three quarter hours.

PHYSICAL EDUCATION 7, 8, 9.

Remedial exercises and light recreational activities adapted to individual needs may be substituted for regular class work on advice of a physician and the physical director.

Credit same as regular class.

HEALTH EDUCATION 1, 2, 3.

This course covers the hygiene of the school in its relation to education; formation of health habits and related topics; a detailed study of the human body; and lectures in personal hygiene.

Required of all Freshman girls.

DEPARTMENT OF VOICE

MRS. BURNETT

VOICE. First Year.

A proper and definite breath control. Knowledge of use of vowels to produce resonant tone satisfactory in quality and quantity. Consonants in relation to vowels. Vocalizes to begin work in extension and flexibility. Ability to sing the easier song classics in correct intonation, tone quality, and with proper interpretation. Especial thought and suggestions are given for clear enunciation. Chorus.

VOICE. Second Year.

Further development of technique, breathing, of tone quality and quantity. More difficult song classics, and easier operatic and oratorio arias. The problems of each individual are studied and proper habits of singing established. Chorus.

COLLEGE CHORUS

This organization is open to any student who is interested in the study of vocal ensemble. The only requisite is the ability to sing on pitch, and entire co-operation with the organization as a whole. The director requires prompt and regular attendance, attention, and earnest study at every rehearsal, and at various programs on and off the campus. The College Chorus is called upon often to furnish music at the various churches in both Kings Mountain and Sandy Run Associations.

COMMERCIAL DEPARTMENT

MRS. McBRAYER

Realizing that in all walks of life there is a great demand for those trained in business, the college has incorporated in its curriculum a two-year secretarial course. The student satisfactorily completing this course will have secured a thorough grounding in business principles, and need not hesitate to accept a position in any business office. Besides the usual courses, Shorthand, Book-

keeping, and Typewriting, certain other courses, invaluable to one entering the business world, will be required of the student completing the work of this department. A certificate will be given upon satisfactory completion of the course. This course includes:

SHORTHAND

This comprises the mastery of the principles of Gregg Shorthand, supplementary material for word building, dictation of actual business letters, and transcription of material from shorthand notes.

TYPEWRITING

Typewriting is recommended to anyone wishing to become proficient in the touch system of typewriting, whether or not he expects to do secretarial work. This course is designed to give a real working knowledge of all parts of the typewriter, and a complete command of the keyboard through finger, concentration, and accuracy drills, consisting of interesting word, sentence and paragraph work. Practice in typing neat, correct business letters is emphasized.

BOOKKEEPING

A thorough course in Twentieth Century Bookkeeping is offered. The student completing this course will have kept three actual sets of books, and will have a practical working knowledge of the principles of bookkeeping.

SECRETARIAL PRACTICE

This course comprises instruction in office methods, office problems, and secretarial practice. The most up-to-date text is used on all the problems, and the projects are taken from actual office experiences and procedures.

Description of other courses to be taken in connection with these will be found elsewhere in this catalogue.

EXPENSES

1. The trustees have fixed the charges for table-board, room and tuition at the lowest possible figure consistent with good service. No margin has been left for deduction or losses. For the convenience of our patrons, the charges for the entire year have been divided into six payments. These payments are due on the following dates (the beginning and middle of each quarter *);

September 13, Tuesday; October 22, Saturday;

December 5, Monday; January 23, Monday;

March 4, Saturday; April 15, Saturday.

2. A discount of five per cent is allowed when full amount for the year is paid at the opening of the college.

3. When two or more students come from the same family, a deduction of five per cent is made in the account of each. This deduction is not made if either or both students should withdraw before the end of the year.

4. Since Boiling Springs College is owned and supported by the Baptist churches of this area, special encouragement is offered to Baptist ministerial students and to children of Baptist ministers. For any ministerial student who presents a recommendation from his own church indicating approval of his preparation for the ministry, the tuition charge will be reduced $48 per year. The same reduction will be extended to sons and daughters of Baptist ministers actively engaged in preaching, or pursuing an education in an institution of learning.

5. Not more than one deduction will be allowed on any one account. If an account merits two or more deductions, the larger one will be granted. ALL DISCOUNTS WILL BE DEDUCTED FROM THE LAST PAYMENT.

*A quarter is one-third of the college year.

6. The following exhibit shows the items included in the cost for one boarding student for the entire college year, also for the quarter.

Tuition, board, room, light, heat, and water for thirty-six weeks, Matriculation fee, Infirmary fee * (including ordinary medicine), Library fee, Student Activities fee †

‡ Total for the year	$270.00
† Total for the quarter	$ 90.00

7. For day students the rate is $37 a quarter or $111 a year. This covers the fees for matriculation, library and student activities, but day students are not charged an infirmary fee.

PAYMENT FOR SPECIAL COURSES

Payment for special courses will be made according to the plan of settlement for other college expenses, viz. in six installments. Bills for these will be sent to the parents as soon as the names of the students in the various departments are given to the college office

COURSES IN MUSIC

	Per Year	Per Quarter
Piano or Voice (for college students)		
Two lessons a week	$60.00	$20.00
One lesson a week	30.00	10.00
Piano or Voice (for elementary and high school students)		
Two lessons a week	51.00	17.00
One lesson a week	22.50	8.50
Use of Piano for practice	6.00	2.00

Students are admitted to classes in theory, harmony, history of music or sight singing without extra charge. The Glee Club or Chorus is open, both to music students and to others, without charge except $1.00 per quarter to cover the cost of music.

*The infirmary fee, which is required of all boarding students, secures the service of the college nurse free of charge. In case of serious or protracted illness the extra expense for physician or other outlay is paid by the student. No charge is made for common medicines dispensed from the infirmary, but other drugs given upon physician's prescription are to be paid for by the student.

‡Not including laboratory fees or specials.

†The student activities fee covers membership in the athletic association, $1.00 on the cost of student publications and various incidentals of student life including equipment and supplies for the recreation hall.
$1.00 on the cost of student publication and various incidentals of student life,

COMMERCIAL COURSES

Students regularly matriculated and paying full tuition as shown above will not pay any additional tuition fee for commercial courses. For students enrolling for these subjects only, the rates are as follows:

	Per Year	Per Quarter
Shorthand	$24.00	$ 8.00
Typing	24.00	8.00
Bookkeeping	24.00	8.00
Use of typewriter for practice	6.00	2.00

OTHER FEES

LABORATORY FEE for Chemistry or Biology (a quarter) $3.00

DIPLOMA FEE 6.00

TRANSCRIPT FEE. One copy of a student's complete record at Boiling Springs College is furnished free of charge. A charge of $1 00 is made for each additional copy.

A LATE MATRICULATION FEE of $1.00 is charged for any student matriculating more than one week after the opening of any quarter. A fee of $1.00 is also charged for each change of course more than two weeks after the opening of any quarter.

A ROOM RESERVATION FEE OF $5.00 must be sent with the application of each boarding student, and this will be credited on a student's first payment. No room will be regarded as reserved until this fee is paid. It will not be refunded unless the application is cancelled prior to September 1, or unless the student's preparation is found to be insufficient for entrance.

STUDENTS ENTERING COLLEGE LATE are charged for tuition and fees for a full quarter, but are charged for board and room only from the time of entrance. The same provision applies in regard to students leaving the college before the end of a quarter; in such cases the reduction for board and room begins only after the college office has been definitely notified of withdrawal. A student who discontinues a special subject before the end of a quarter is charged for the full quarter.

NO REDUCTIONS OR REBATES can be allowed for absence from the college except for protracted illness extending over several weeks and certified by the college or family physician. No provision is made for board or lodging in the college dormitories during the Christmas vacation, and there is no reduction for late return after any vacation.

BREAKAGE OR DAMAGE TO FURNITURE, ROOMS OR OTHER PROPERTY is charged to the one doing the damage. When this cannot be ascertained, the damage is assessed against the occupants of the room.

ELECTRIC FIXTURES. One 60-watt bulb is furnished for each room, but students are charged for replacements or extra bulbs. All additional electric applicances are charged for at the rate of $1.00 a quarter for each room.

GUEST RATES. Students or teachers wishing to invite guests must make arrangements in advance with the dietitian and dormitory head. A charge of $1.00 a day or 25c a meal is made for such guests.

BOOKS AND STATIONERY are furnished for cash. The college cannot assume responsibility for credit accounts made by students with local merchants.

NO STUDENT WILL BE ENROLLED FOR REGULAR OR SPECIAL COURSES UNTIL HE PRESENTS A RECEIPT FROM THE COLLEGE OFFICE SHOWING THAT ALL AMOUNTS DUE HAVE BEEN PAID OR ARRANGED FOR, AND NO DIPLOMA, CERTIFICATE, OR OTHER MARK OF DISTINCTION WILL BE AWARDED EXCEPT ON THE SAME CONDITIONS.

For all information in regard to costs, loans, reducing expenses, or any other financial question, write to the president of the college.
